

Md. Fahim Montasir Seyam

Trainee SQA Engineer

Madani Avenue, Vatara, Dhaka-1212

01642150406 · montasirseyam@gmail.com · LinkedIn · GitHub · Portfolio

Career Objective

I am looking to start my career in Software Quality Assurance where I can use what I have learned from my SQA training and practical projects. I have experience with manual testing, test case design, API testing using Postman, bug reporting, and basic automation with Playwright. I want to gain real-world experience, improve my testing skills, and work with a QA team where I can learn, contribute, and grow as a software quality professional.

Technical Skills

Software Testing:	Manual Testing, Test Case Design, Test Scenario Design, Bug Reporting, Functional Testing, Smoke Testing, Sanity Testing, Regression Testing
Testing Concepts:	Negative Testing, Boundary Value Analysis, SDLC, STLC, Agile/Scrum
API Testing:	Postman, REST API Testing, HTTP Methods, Status Codes, Authorization Testing, JMeter (Basic)
Automation & Tools:	Playwright, Selenium (Basic), JIRA, Git, GitHub
Programming:	JavaScript, Java, Python, C, C++
Database:	MySQL, SQL

Training & Activities

Software Testing & Quality Assurance Trainee

May 2026 – September 2026

Centre for Development of IT Professionals (CDIP)

- Receiving practical training in manual testing, test case design, API testing, defect reporting, and software testing fundamentals.
- Performed hands-on API and system testing using Postman, including functional, negative, boundary, and authorization test scenarios.

General Member

2024 – Present

UIU Computer Club, United International University

Projects

QuickBite – Food Delivery Application Testing

Manual Testing, Test Case Design GitHub

- Designed and documented 76 test cases covering functional, negative, boundary, edge-case, and non-functional testing across cart, coupons, checkout, payment, order tracking, cancellation, and rating modules.
- Reviewed product requirements and identified key ambiguities related to delivery fees, restaurant rejection, payment failures, referral rewards, rating updates, and coupon re-application.

SauceDemo E-commerce Test Automation

Python, Selenium, Pytest, Allure GitHub

- Automated end-to-end login, product selection, cart, checkout, price verification, and purchase workflows using Selenium WebDriver with Pytest.
- Structured the automation project using the Page Object Model and generated Allure reports to organize test execution and results.

Cartup E-commerce Test Automation

Playwright, JavaScript, Node.js GitHub

- Automated login, product search, cart management, checkout, order verification, and logout using Playwright.
- Created reusable test scripts with screenshots and test reports to validate end-to-end user journeys.

Panda Lite API System Testing

Postman, REST API GitHub

- Designed and executed functional, negative, boundary, authorization, and access-control test cases for authentication, restaurant, and menu APIs.
- Validated HTTP status codes, response data, and API behavior while documenting test scenarios and defects.

NovaHire – Job Portal & Career Platform

PHP, MySQL, Bootstrap, JavaScript GitHub

- Developed a multi-role web application with authentication, role-based dashboards, job posting, application tracking, and database-driven workflows.
- Implemented REST-style APIs and AI-assisted features including job matching, resume analysis, mock interviews, and career guidance.

Achievements & Awards

- **2nd Runner-Up – UIU Summer'24 Project Showcase:** Developed a Hand Gesture Controlled Car with obstacle detection, fire detection, and water-spraying capabilities among 100 participants.
- **Russian Government Cultural Scholarship 2024/25:** Awarded a fully funded undergraduate scholarship for a Bachelor's program in Russia.
- **50% Academic Waiver – Fall 2024:** Received a 50% tuition fee waiver at United International University.
- **UIU CSE Fest 2025:** Participated in UIU CSE Fest 2025 and presented a technology-based academic project.

Education

United International University

B.Sc. in Computer Science and Engineering, Major in Software Engineering

2022 – 2027

CGPA: 3.20/4.00
